

## E-SOURCING

Digitalize and automate your sourcing procedures with SESAMI's proven E-Sourcing solution, packed with industry best practices and used by over 200 buying entities. Tap onto our progressively growing community of over 40,000 vendors and maximize your outreach, while ensuring transparency in compliance and governance throughout your entire journey with us.

### BENEFITS

 <p><i>Time Efficiency</i></p>	<p>With a comprehensive central platform for both Buyers and Vendors to collaborate, this streamlines many processes.</p>
 <p><i>Supplier Relations</i></p>	<p>Communications can be done via the portal; this ensures quick clarifications and feedback between both parties.</p>
 <p><i>Business Opportunities</i></p>	<p>Ease of usage and access allows Vendors to participate in endless opportunities.</p>
 <p><i>Transparency and Traceability</i></p>	<p>Ability to track decision making processes and outcomes for transparency and governance.</p>
 <p><i>Security</i></p>	<p>Certified under the Level 2 Multi-Tier Cloud Security (MTCS) for Software-as-a-Service under IMDA's standards</p>

## FUNCTIONALITIES

1

### Creation & Management of RFQ/Tenders

Utilize our simple but configurable templates for Request for Quotations/Tenders to meet your organizational sourcing needs. A choice of open/closed RFQs/Tenders is available based on the Buyer's requirements in the case of a by-invite-only event. Experience significant reductions in sourcing cycle duration with our integrated approval workflow.

2

### Business Matching Alerts

Our SESAMi Business Matching feature allows relevant suppliers to be notified of business opportunities, by the categories selected by the Buyer.

3

### Buyer Control

We provide scalable control for Buyers such as custom taxonomy, time lock, tender opening committee and E-Approvals.

4

### Awards

Buyers have the option of different types of Awarding such as split, partial, no awards. Vendors will be able to be notified of any changes, cancellations, and award outcomes of their submissions.

5

### Vendor Management

Vendors will first be able to self-register with the SESAMi platform and onboarded after a series of compliance & certification checks. The SESAMi team provides a dedicated helpdesk and user guides to ensure Vendors are able to utilize and navigate seamlessly across the platform.
